

Environmental Policy Statement

This Environmental Policy covers Dynamic Metals Limited's activities at its own facilities and client facilities where applicable.

The company is committed to continuous improvement, prevention and reduction of pollution and to minimising the environmental impact of its activities, processes and services.

This will be achieved by:

- Minimising waste and the consumption of resources e.g. materials, fuels and energy.
- Ensuring that our suppliers include full consideration of the environmental effects of their own and subsequent supply chain actions.
- Continuing to meet current and future legislation, regulations and customer environmental requirements.
- Maintain an EMS that will meet the fundamental requirements of ISO 14001:2015.
- Training all employees to be aware of their responsibilities towards environmental activities.
- Controlling and monitoring all activities that may cause a significant environmental impact.
- Promoting and seeking active participation of employees, customers, and suppliers in the environmental policy.
- Ensuring our commitment to reducing our impact on climate change and other environmental goals and aspirations.

Dynamic Metals Ltd.'s environmental policy will be displayed within our facility and is available on our website **www.dynamicmetalsltd.co.uk** and if requested made available to any interested parties.
