

## RoHS

Dear Valued Customer,

Dynamic Metals Ltd does not manufacture any of the products sold, but rather distributes the products while providing value added services such as sawing, heat treatment and material conversion.

Based on information from our suppliers regarding the products we supply and the RoHS Directive, we can make the following statement:

We can confirm that the levels of:

- Lead
- Cadmium
- Mercury
- Hexavalent Chromium
- Polybrominated Biphenyl (PBB)
- Polybrominated Diphenyl Ethers (PBDE)
- Bis (2-Ethylhexyl) phthalate (DEHP)
- Benzyl butyl phthalate (BBP)
- Dibutyl phthalate (DBP)
- Diisobutyl phthalate (DIBP)

Are all below the maximum permissible levels stipulated in the European Directive 2015/863 RoHS 3 (Restriction of Hazardous Substances), for all materials supplied by us.

The only exception to this is where customer orders a grade of material where British, European or International Standard covering that specification/grade requires the level of one or more of the substances to be in excess of the RoHS Directive.

In this case, the material will contain a value of each substance in line with the requirements of the standard.

If you have further questions, please do not hesitate to contact us.
